

Before his third birthday he had lost all of his sight, but the challenge of his blindness did not prevent Mr. Hawkins from striving for excellence. With the help of his grandparents who raised him, he achieved an impressive record of success in his youth. He graduated from high school in 1983 as valedictorian, student body president, and scholar athlete.

Following high school, Mr. Hawkins attended college at night while he worked as a successful insurance sales agent and for the Alphapointe Association for the Blind. Although his college career ended after marriage and the birth of his daughter, he continued to set and achieve meaningful goals for himself. He accepted a part time position as a telemarketer with United Missouri Bank (UMB), and within the next two years was promoted by UMB several times. Mr. Hawkins is currently a valued member of UMB management, and has assisted other people who are blind with securing employment at UMB. I applaud him for both his personal achievements and for his generosity to others.

Mr. Speaker, please join me in congratulating this admirable American upon being the first person to be honored with this prestigious award.

HONORING PHI DELTA KAPPA FOR TWENTY-FIVE YEARS OF SERVICE

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Friday, October 2, 1998

Ms. DeLAURO. Mr. Speaker, I am pleased to rise before you today to honor the Southern Connecticut State University Chapter of Phi Delta Kappa on their twenty-fifth anniversary. Phi Delta Kappa members provide a variety of services to promote and improve education in our community.

Members of this successful international organization are Connecticut educators who are continually active in the education arena and dedicated to the ideals of service, research, and leadership. They are teachers, principals, administrators and superintendents—people who are with kids every day, who have given their all to ensuring that our children have the best start in life.

On October 3, 1973, one hundred and twenty charter members were initiated into the newly formed chapter of Phi Delta Kappa at Southern Connecticut State University. Twenty-five years later, I am proud to say, this chapter has grown to nearly five hundred members strong. It is these individuals, and all that they contribute, which make the Connecticut school system a success. Membership in this fraternity is recognition of the contributions to education made by our educators. I commend the members of the Southern Connecticut State University Chapter for all the work they have done in order to guarantee that our children will develop the skills they will need to build a successful future.

On behalf of the parents, students, and the residents of Connecticut, I thank you for your good work. It is for twenty-five years of dedicated and distinguished service of all members of the Southern Connecticut State University Chapter of Phi Delta Kappa that I am proud to stand and recognize their achievements today.

COMMEMORATING THE 150TH ANNIVERSARY OF MANALAPAN TOWNSHIP, NEW JERSEY

HON. MICHAEL PAPPAS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 2, 1998

Mr. PAPPAS. Mr. Speaker, I rise today to congratulate the people of Manalapan Township, New Jersey as they celebrate their 150th anniversary.

The word "Manalapan" means "land that produces good bread" in the language of the Leni Lenape Indians who were the first to inhabit the town. Another group of early settlers to Manalapan were farmers who were attracted to the area's rich soil and clear, running brooks. Some of these farms still exist today, having been handed down from one generation to the next.

The Battle of Monmouth, an important battle during our nation's War for Independence, was fought in Manalapan. The landmark, Old Tenent Church, still an active congregation, served as a temporary hospital for the war's wounded, while its cemetery serves as a final resting place for those who died. Our nation's battle for independence is commemorated in the township's Battleground Park, a recreation area for township residents and those who visit this beautiful area of central New Jersey.

Over the past 150 years, Manalapan has grown from a rural, farming community to one of over 27,000 residents. It boasts a strong educational system, many parks and recreation facilities and a close-knit community atmosphere. Manalapan is a major reason why Monmouth County, New Jersey was voted the third best place to live in the United States by *Money Magazine*.

I wish to commend the Township Committee and all of the people of Manalapan on this historic anniversary. It is an honor to have this great township within the borders of the twelfth congressional district.

INTRODUCTION OF SMALL BUSINESS INVESTMENT INITIATIVE

HON. JENNIFER DUNN

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, October 2, 1998

Ms. DUNN. Mr. Speaker, the American economy is moving quickly from one dominated by large corporations to one whose growth is fueled by emerging entrepreneurial high-growth companies. Entrepreneurial companies are today's leaders in job creation, technological innovation, and international competitiveness. America's future economic well-being lies in the hands of today's emerging companies and the central organizing principle for our nation's economic policy should be entrepreneurship.

Over the course of many years, a complex fabric of public policies have created the environment in which entrepreneurial firms compete. Due to the fact that the public policy needs of this community have not been articulated in a united fashion or widely understood by policy makers, however, the basic "building blocks" used to enhance economic growth have not been properly constructed. I rise

today to begin to lay the foundation for this policy and ensure that the engine that drives this economy has access to the fuel it needs to thrive: capital.

Entrepreneurs are synonymous with jobs. Between 1980 and 1990, U.S. private sector employment grew by 19 million jobs, but employment in the Fortune 500 firms dropped by three million jobs. In other words, job creation outside of the Fortune 500 companies rose by 22 million. By creating an environment for entrepreneurship to thrive, we also ensure that "spin off" companies develop to foster even greater job creation and technological development. Nowhere is this more clearly demonstrated than in the biotechnology and computer industries that have grown up in my home state of Washington.

The bill I am introducing today will ensure that these new capital-intensive small businesses will have the money they need to create innovative technologies and create jobs. By raising the Section 1202 definition of small business from \$50 million to \$300 million and raising the capital gains exclusion from 50% to 75%, we can create a climate in which individual investors are rewarded for their risky investment and entrepreneurs have the tools they need to succeed.

Capital gains taxes are one of the nation's primary obstacles to job creation and technological innovation. Anything to reduce the effective or actual rate on capital gains taxes will help put more money in the hands of our nation's most enterprising citizens and lift the standard of living for everyone. In addition, this proposal is completely consistent with Speaker GINGRICH's effort, of which I am a supporter, to reduce the broad-based capital gains rate to 15%.

Over the course of the next two years, I expect a healthy debate over tax policy. It is my hope that this bill will put the primary focus of this debate where it ought to be: removing incentives to economic freedom and entrepreneurship.

I urge my colleagues to support this effort.

TRIBUTE TO KRISTEN GRACZYK

HON. HEATHER WILSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 2, 1998

Mrs. WILSON. Mr. Speaker, Kristen Graczyk is a constituent of mine. Although she is not old enough to vote, the lesson she has learned and taught to students and adults make her wise beyond her years. A 15-year-old soccer star at La Cueva High School, Kristen has been called the Mia Hamm of New Mexico soccer. As a sophomore she has scored 20 goals in the first six games for one of the best high school soccer teams in the Nation.

And then, before the Homecoming dance, she got drunk. At the dance she was pulled off the dance floor by principal Sam Soto, her parents were called and she was kicked off the soccer team. In these times, the story might have been that she found a lawyer and fought the suspension all the way to the Supreme Court. But Kristen did something different. She wrote a letter to her team and all of the media outlets in Albuquerque.

In the letter she takes responsibility for her actions and warns other children about the effects of alcohol and encourages them not to
